

Our move to digital membership cards

We are improving our eco-friendly business practices by embracing digital membership cards. By reducing the need for physical cards and paperwork, we can offer an operation that benefits the environment and streamlines our membership process. Going digital saves on materials, printing services, and postage fees, meaning resources can be used for other critical Museum activities.

Convenience for you

Your digital membership card will be sent to you as a .png file for downloading to your smartphone. It can be saved to a wallet*, home screen or folder, so that's one less card to carry in your purse or wallet. The new card contains a QR code which enables us to access your membership record easily should we need to do so.

All new members will receive digital cards, and our existing members will transfer to a digital card on renewal**.

Android users – adding your card to a wallet

Google Wallet

- Open Google Wallet
- + Add to Wallet
- Everything else
- Select the .png file from your chosen folder
- Done
- Next
- Describe your pass by adding a name and description
- Next (adds your new pass)

Samsung Wallet

- Open Samsung Wallet
- Add
- Memberships
- Import from Gallery
- Select item
- Set card image
- Enter membership name (Do not edit the Membership number)
- Save
- Add to Quick access
- Done

*Apple Wallet

It is not possible to add the .png file directly to the Apple Wallet. First you need to use an app such as MakePass or Wallet Creator, to generate a card from the image for Apple Wallet.

**If you require a physical card in the future please email membership@haslemeremuseum.co.uk
